Employment History

Jan 2023 – Present

UPF – Post-doc UNEQUAL project

Post-doc in the UNEQUAL project funded by the Ministry of Science and Innovation of Spain. The project aims at studying the consequences of socio-economic inequalities on demographic outcomes. I focus on the job-characteristics and labour market structure on possible fertility outcomes.

Dec 2021 – June 2022

European Commission (Joint Research Centre) – External consultant

External consultant for the Social Classes in the Digital Age Project. Collected cross-country data over time to create of a unique homogenous dataset for the selected European Countries. This dataset has been used to update the traditional labour shares and income inequality using a new class scheme.

January 2019 - present

Barcelona, Spain

UPF – Teaching Assistant in Techniques of Statistical Analysis II

Responsible for the tutoring and practical implementation in STATA. Covered issues are PSM, IV, panel data and multilevel analysis.

Dec 2018 – June 2019

Barcelona, Spain

UPF – Research Assistant

Working as research assistant within the project “Abilities and intergenerational mobility” with Prof. Esping-Andersen. Responsible for the collection, organization and advanced analysis of the micro-data.

Research skills

Data analysis

Micro-data collection & management: working with large survey (e.g., LIS, ECHP, EU-SILC, SHIW, SOEP) and administrative data.

Advanced econometric analysis: panel data methods, multilevel modelling, causal inference, machine-learning methods, structural equation modelling.

Stata: advanced level

R: intermediate level

Python: introductory level

SQL: intermediate level

Communication

Fluent in English and Spanish.
